About the Institute

In a globalized world, business organizations need real competent and capable managers who can explore the opportunities and take up the challenges. Today's managers need to be highly knowledgeable and skillful to face the global and local competition posed in a volatile environment. The business organizations are looking forward to the management institutions with great expectations for the right kind of professionals. Taking up this challenge and with the objective of preparing requisite proficiency, the Faculty of Management Studies, Pacific University ventured into establishment of Pacific Institute of Management and Technology (PIMT). The Institute offers two year innovative management program called Post Graduate Diploma in Management (PGDM) plus Masters Degree in various fields.
